MEDICINES.

THE BEST PURIFIER of the BLOOD.

—Rev. Dr. STICKLAND'S AMERICAN FAMILY PILLS are undoubtedly the best veretable compound ever discovered for the cure of Liver Complaints, Janualice, Piles, Custiveness. Dystropia, Sallow Complexton, Sick Hendach, Bitter Taske, Droppy, Kidney Affections, Gravel, Rheumatiem, Intermittent Fever and Agne, Indianza, Colds, &c. Being in spirit accordance within the unaderable laws of creative Providence and a knowledge of Austony and Physiology. The Doctor is convinced that the same all-wise being has created in the vegetable world a remely for cvery disease that flesh is heir to. Anatomy teaches that the human body contains many important or gains called 2 hads, each of which is employed in secreting from the blood two mappropriate fland, the chief of which is the Liver, Kidneys, Salivary and Chandalar bodies connected with the pures of the skim. The Liver and Salivary (Janads sacrete from the blood those falles that carry on the work of disestion, and thus promote the healthy action of the bowless—the kidneys and skin secrete from the blood those desicerious impurities which, if obstructed, will produce many diseases and health be entirely impaired. Now, this vegetable compound attacks the liver, stimulates it to action, removes its diseases, corrects the billious and digestive organs, causing the kidneys to act and opening the porces of the skin.—Hence the "Purification of the Blood," whereby perfect health is restored. For convincing proof of the above the Doctor requests a perusal of his pamphlet, setting forth most fally the philosophy of their action, and fall directions and certificates of unparableled curves. Office 153 Fulton-st. New York, and sold by venders of medicine generally.

SEWING MACHINES—CAUTION.— The subscribers, owners of the ROTARY SHUTTLE MACHINE, patented Oct. 1849, hereby Caution the Public against purchasing or using Machines which infringe upon their patent, as they will prosecute to the extent of the law all such infringments. their patent, as they will prosecute to the extent of the law all such infimements.

Our machines are now offered for sale for the first time. They have been in use in this city for one year. One firm has mede ten thousand dozen Cloth and Plash Caps. Several other companies have employed them very profitably in making clothing, carpet and grain bags, and for other purposes. There are a number now to use at the factory of H. W. Bark's & Co. Elm, corner of Ganal's, where those wishing to purchase are invited to call and see them in operation. Messrs, H. W. B. & Co. are authorised to make sales of Rights or Machines for use in this city.

These machines are so easily managed, that a child of H years of age has kept, even machines (which are proposled by steam and employed in making begs) in good order for some months past, strending at the same time, to the running of her own machines and doing with it the work of four adults of sawing by hand.

These machines can be driven by mand, treddle, or steam power. To persons wishing to make as experiment before buying a machine would be rented at a moderate price. We condently assert that these are the only machines of real practical utility, and while we invite an examination of the machines now in operation, we repeat our cardion against infringments, which will certainly be prosecuted.
